Preschool

Health Plan For Preschool Students

The First Christian Church, Narrows, Virginia, Preschool Guidelines, Revised 2008, states in SCHOOL POLICY, 4. – “No medications are given by Preschool Staff. However, first aid treatment will be administered as necessary.”

The preschool staff recognizes there are times when extreme emergency medications may need to be administered, such as an inhaler for asthmatic attacks or an epi-pen for an allergic reaction. Children receiving this type of prescribed medication must have written permission with instructions permitting the preschool staff to administer the prescribed medication. The medication must be given to the preschool staff by the parent or guardian for safe storage.

The preschool staff reserves the right to refuse a student staying at preschool if the staff feels unqualified to administer the necessary emergency medication. Arrangements to return the student to class must be completed as soon as possible.

Parents/legal guardians are required to complete a Consent For Administering Prescription Medication for each student who may require emergency medication.
